Use of Aquatabs

Over view

Aquatab tablets which kill micro-organisms in water to prevent cholera, typhoid, dysentery and other water borne diseases. The tablet dissolves clear within minutes an disinfects the water within 30 minutes.

Aquatabs are available in a range of tablets sizes. Each tablet size is formulated to treat a specific volume for 1L to 2,000/2,500L. The tablet are presented in strips of 10 tablets with a shelf-life of 3 years to 5 years.

Aquatabs are used both in emergency situations and also for continuous use in households that do not have access to safe drinking water.

Why use Aquatabs to treat water?

Aquatabs are used:

1. Many water sources throughout the world, even after filtration, remain contaminated and require some form of disinfection.
2. Aquatabs are simple to use, easily transported, cost effective and affordable to low income groups.

3. Aquatabs water purification tablets are specifically approved to international standards for use in drinking water.

### Direction for use and dosage

Each tablet is dissolved in a specified volume of water according to the following dosage chart.

<table>
<thead>
<tr>
<th>Liters of water</th>
<th>emergency</th>
<th>Household</th>
</tr>
</thead>
<tbody>
<tr>
<td>1L</td>
<td>8.5mg</td>
<td>3.5mg</td>
</tr>
<tr>
<td>2L</td>
<td>17mg</td>
<td>8.5</td>
</tr>
<tr>
<td>4-5L</td>
<td>33mg</td>
<td>17mg</td>
</tr>
<tr>
<td>10L</td>
<td>67mg</td>
<td>33mg</td>
</tr>
<tr>
<td>20-25L</td>
<td>167mg</td>
<td>67mg</td>
</tr>
</tbody>
</table>

**Instructions**

- Add 1 tablet to 20-25L water (if water clear) and ensure thorough mixing.
- If the water is turbid (dirty looking), first filter through a cloth and then add 2 tablets to 20-25L water and ensure thorough mixing.
- Cover the vessel and wait at least 30 minutes and then enjoy the benefits of safe water.
- After 30 minutes your water is safe to drink. Withdraw your water using a jug or with a handle to avoid dipping your hands during withdrawal of water.

**Safety Instructions**

- DO NOT overdose. Make sure you use one tablet for 20-25 liters of water only.
- DO NOT consume the tablet.
- Keep Aquatabs out of the reach of children.
- In case of accidental consumption, don’t induce vomiting, but take the person to the nearest clinic for proper medical attention.
- DON’T SWALLOW TABLET.
