3W Project Data Entry Support Session

Background information

The Who/What/Where (3W), compiled by the MIMU, is a tool which has been used by agencies and donors in Myanmar for planning and coordination of humanitarian and development activities since 2008 after Nargis. It is important this tool is kept up to date – to make this possible, the MIMU has simplified the format and will seek to update this data with agencies’ inputs every 6 months.

213 organizations contributed inputs for 3W compilations in August 2020. We have started collecting the updates for next round and will release the new 3W reports and maps in July 2021. Thus, your inputs are essential to draw the overall picture of 3W information for Myanmar as well as to reflect your own activities.

Support Sessions

MIMU is arranging Support Sessions to assist agencies to complete the 3W information. These provide an orientation on the 3W process and format, and assistance by the MIMU team in completing the 3W formats using the agencies’ own information.

The Support Sessions are targeted at staff who would complete the 3W formats. Staff needs to attend only one Support Session; however, they could join more than one as stated in the schedule.

Objective

1) To assist agencies to understand the 3W Data Entry and input their information in the format
2) To provide guidance on a tool to add P-codes to your project locations.

Expected Attendee

Staff members responsible for project data management and preparation of 3W inputs

Please Contact us to register in one of the support sessions below:

Date: 26th May 2021 (Wednesday)
27th May 2021 (Thursday)
2nd June 2021 (Wednesday)
3rd June 2021 (Thursday)
8th June 2021 (Tuesday)

Time: 2:30 p.m. to 4:30 p.m.
Venue: Online Event - Link to participate in the event will be sent after registration
Language: Myanmar
