Over the past seven months Myanmar has experienced a surge in new displacement in four states, while humanitarian organizations simultaneously faced severe constraints on access. Border post attacks on 9 Oct 2016 and subsequent security operations triggered a new humanitarian crisis in northern Rakhine. Intensified conflict resulted in new displacement in Kachin and northern Shan. Thousands were also relocated in Kayin State due to fighting in Sep 2016.

**DISPLACEMENT**

237,000 currently displaced

New displacement since Sep '16 by region/state (in thousands)

- Rakhine: 97
- Shan: 28
- Kachin: 8
- Kayin: 7

Approx. 74 thousand people who fled to Bangladesh
