

Junior Programmatic/ M&E Expert - Myanmar

Background

SLM is preparing a proposal in response to The Global Fund's Request for Proposals for LFA services in Myanmar. This role entails independent verification of grant performance, financial management, and health product supply chains under challenging conditions, including post-disaster recovery and systemic disruptions.

Position Summary

The Junior Programmatic/M&E Expert supports the Senior M&E Expert by conducting field-level data verification and engaging with local stakeholders. This role leverages strong contextual understanding and language skills to ensure the accuracy of reported data and provide insights on program implementation at the service delivery level.

Key Responsibilities

- Support the Senior M&E Expert in all programmatic verification activities.
- Conduct on-site data verification at health facilities and community service points, comparing reported data with source documents (e.g., patient registers, lab reports).
- Utilize Burmese language skills to interview health workers, program staff, and beneficiaries to gather qualitative information on program quality and challenges.
- Assist in drafting sections of LFA reports, ensuring findings are clearly documented and substantiated.
- Contribute to the analysis of program performance data.

Minimum Qualifications and Experience

- A bachelor's degree in medicine or public health.
- A minimum of 3-5 years of experience in public health program implementation or M&E.
- A solid understanding of the Myanmar country context.
- Prior experience with the Global Fund is strongly preferred.
- Fluency in **Burmese** and English is required for this role.
- This position must **preferably be based in-country (Myanmar)**.

Location

Myanmar
