

## **TVET Specialist - EdTech**

### ***About Zabai***

Zabai provides high-quality education for young people in developing countries. The education is provided through e-learning, video lessons and blended learning and it is distributed from a platform specifically created for developing countries. Our focus is on creating measurable results; therefore, all our projects have clearly defined effect goals. We use innovative techniques and tools that reach large target groups, and that speak to the heart as well as to the mind. We deliver solutions for all platforms, such as desktops, tablets, and smartphones.

Zabai is currently a team of 35 persons working out of Myanmar, Norway and Bangladesh.

### **Duties and responsibilities**

As part of our ongoing commitment to excellence and innovation in education, we are seeking an experienced TVET Specialist in EdTech/E-Learning to lead the development and integration of cutting-edge vocational technologies and e-learning solutions. In this particular project, Zabai will develop a number of skill development training in digital format which will be utilized in a blended app by respective trainers in various set-ups including physical classrooms. The TVET Specialist will primarily be responsible for leading the development of digitalized TVET projects, communicating and following up with stakeholders such as curriculum developers, trainers, and beneficiaries.

- Collaborate with subject matter experts to select, design and implement e-learning modules and digital content that align with project goals.
- Draw up methodology for each TVET course to be developed, with learning features that suit and complement blended approaches
- Write manuscripts
- Collaborate with cross-functional teams, including designers, and e-learning developers, to ensure the timely delivery of high-quality e-learning products that meet project expectations and requirements.
- Conduct regular evaluations of e-learning technologies and methodologies, using data and feedback to drive improvements and innovation.
- Hold regular meetings with the stakeholders to keep track of the deliverables, deadlines and feedbacks etc.

### **Qualifications**

- College/University Degree in Education Technology, Instructional Design, or related field.
- Demonstrated experience in TVET sector, and relevant associations
- Strong foundation in pedagogical theories and practices, especially in the context of digital learning.
- Proficient in various educational technologies and digital learning platforms.
- Excellent communication, collaboration, flexibility, and project management skills.
- Ability to write manuscripts in both English and Myanmar languages
- Ability to travel and lead video production outside of Yangon if necessary

The successful candidate must be loyal to accept Zabai's Code of Conduct.

This is a unique opportunity for an TVET Specialist to join a leading Edtech company with a lot of energy. For the right candidate, we will offer a competitive package.
