644 Constituencies

The boundaries of State/Region electoral constituencies (2 per township) are defined by the Union Election Commission on the basis of population figures. Due to technical difficulties to draw some ward and village tract boundaries correctly, the constituency boundaries shown in this map are indicative only. Some reserved forest areas have not been included in electoral constituencies. State/Region representatives are not elected in the Union Territory of Nay Pyi Taw. Note that the map shows only elected representation per constituency, but not the elected Ethnic Affairs Ministers and not the number of military appointees in the State/Region Hlutaws.
