

Installing Myanmar Font

1. Go to Control Panel/Fonts on your computer.
2. Copy the fonts and paste it into your fonts folder within the control panel.
 - The font, **Myanmar 3** will now appear as an option in any software that uses fonts.
3. Select the Columns written in Myanmar Language and change the font to Myanmar 3.

**** NB** - In some cases if you use a small font size (e.g 8) the Myanmar font will not show. We advise you to use font size 12
