GUIDELINES FOR CONDOM DISTRIBUTION

Beneficiaries and Purpose

- These condoms are intended for free distribution directly to men and women of reproductive age among the cyclone affected population, to prevent unwanted pregnancies and to prevent STI and HIV transmissions.

Distribution Channel and Process

- Please distribute directly to the affected population through the project staff and/or volunteers only.
- Please do not put condoms into kits, and also do not leave large amounts for free take-aways.
- It is highly recommended to provide a health education session on the use of condoms, whenever possible, before distribution.
- Please do not sell the condoms.
