### ABOUT PLAN INTERNATIONAL MYANMAR

Plan International is a global organization focused on advancing the rights of children and youth, especially girls, across both development and humanitarian contexts. In Myanmar, Plan International implements integrated programming focused on child development and youth empowerment, with a special emphasis on supporting girls and young women. Our program areas encompass Early Childhood Care and Development (ECCD), Water, Sanitation, and Hygiene (WASH), Resilience and Disaster Risk Reduction (DRR), Child Protection, and Education. Additionally, we focus on Youth and Adolescent Development through Skills and Opportunities for Youth Employment and Entrepreneurship (SOYEE), as well as Leadership and Life Skills Development. Our efforts also extend to ensuring Food and Nutrition Security to promote healthier and more resilient communities.

Plan International is dedicated to creating safe environments for children and program participants, promoting practices that address their specific safeguarding needs and protection risks. We actively challenge and do not tolerate inequality, discrimination, or exclusion.

### JOB BACKGROUND

A 7.7 magnitude earthquake struck central Myanmar on March 28, 2025, causing significant loss of life, infrastructure destruction, and compounding an already dire humanitarian crisis. Plan International Myanmar has been on the ground working hard to reach children and their families affected by the earthquake, providing immediate life-saving relief assistance and long-term recovery effort.

### JOB PURPOSE

The Project Coordinator in an emergency response plays a pivotal role in ensuring that humanitarian interventions are delivered efficiently, effectively, and in coordination with relevant stakeholders. This involves managing Project Officers, local partners and ensuring that activities are delivered on time and within the expected standard.

### DIMENSION OF THE ROLE

The post holder will be responsible overall management of the response in specific geographical locations. The Project Coordinator will ensure smooth, timely, successful and high quality

Until we are all equal

implementation of all programmatic work – in coordination and representative for Plan with Plan's partner organizations, government counterparts, donor and other key stakeholders.

## ACCOUNTABILITIES

### Overall Project Management

- Planning, implementing, and monitoring of emergency response activities in line with the project objectives and donor requirements.
- Manage and lead in the whole project implementation including capacity strengthening, budget control and program quality assurance at the field level.
- Ensure that timelines, budgets, and quality standards are met.
- Working with operation support staff to ensure implementation of appropriate logistics, human resources and financial controls for the field activities.

### Team Leadership and Coordination

- Supervise project teams (staff and sometimes volunteers), providing direction, support, and performance management.
- Facilitate internal coordination between technical sectors (e.g., WASH, CVA, Health, and Protection).
- Ensure regular team meetings and updates from field staff.
- Act as the focal point for coordination with local authorities, humanitarian clusters, implementing partners, and community leaders.
- Represent the organization in coordination meetings and ensure alignment with the broader humanitarian response.

### Partnership Management

- Well-coordinated and closely working with partner for budget planning, projection, project planning, procurement and project implementation.
- Provides guidance to partner organization for enhancing timely delivery of project activities at targeted communities, including narrative and financial reporting as per detailed implementation work plan to achieve targeted outcomes and expected impacting.
- Coordinate with partners and monitor activities based on the agreed deliverables and standards.
- Strengthen technical capacities of partners in core technical areas and project cycle management, integration of cross cutting intervention through coordination with technical advisories and thematic managers for program quality and development.
- Manage and organize a regular coordination meeting with partners organization to ensure understanding and develop a space for exchange of dialogues and discussions of context natures, difficulties, challenges in implementation project activities.

### Monitoring, Evaluation, and Reporting

- Oversee the monitoring and evaluation of project activities and outcomes.
- Ensure timely and accurate reporting to donors and organizational leadership, including sitreps and success stories.
- Track indicators and adapt plans based on changing context and field realities.

Until we are all equal

### **Risk Management and Adaptive Planning**

- Identify challenges, gaps, and risks (e.g., access issues, security threats, supply chain bottlenecks).
- Adjust plans and operations as needed in coordination with technical teams and management.
- Ensure safety and security protocols are followed.

### **Accountability**

- Ensure that community feedback mechanisms are in place and used. Ensure that is integrated in all activities including with partners. Close the feedback loop to address issues and concerns arising from the implementation of projects

### **Personal Development**

- Attends internally and externally facilitated training events, workshops, symposiums, studies, conferences to enhance level of performance. Maximize the use of ICT for greater awareness of local and global trends affecting development work. Accepts special objective assignments for skills enhancement and expansion. Shares learning to benefit others.

## **DURATION AND WORKING HOUR OF THE ASSIGNMENT**

The consultant will be contracted for a period of 4 months, with the expected start date of 1st June 2025. The assignment is a full-time engagement during this period and based in Mandalay Office with 80% travel to project area. Plan International Myanmar will cover for the transportation, Accommodation and per-diem for the required business travel. The consultant is required to work 5 days a week, with 8 hours per working day. Weekends and public holidays, as observed and confirmed by Plan International Myanmar, are entitled.

## **SAFEGUARDING COMPETENCIES, CRITERIA AND LEVEL OF CONTACT**

- Ensure the guidance, design, and delivery of Emergency Response project activities in accordance with Safeguarding policies, procedures and guidance incorporate measures described in the standard Delivering Safe programming and influencing work, “Working with Safe Partners” and “Building Positive and Safe Relationships with Children and Programme Participants”.
- Develop guideline, SOP and procedure for programming are in line with Plan International Safeguarding and PSHEA standards and manual
- Create a safe and supportive environment for all community members, particularly vulnerable groups such as women, children, and LGBTQ+ individuals.
- Ensure project activity does not put children and programme participants at risk by continuously evaluating it through a safeguarding perspective, data privacy and discussing potential design or implementation with the children and programme participants.
- Ensure that staff understand their role and responsibilities for safeguarding and PSHEA and manage performance accordingly.
- Promote the importance of safeguarding and PSHEA to colleagues in other organizations and children, their families, beneficiaries, and the wider community.
- Assume responsibility for reporting any instances of suspected child abuse or neglect immediately as per Plan Myanmar’s policy.

## DEALING WITH PROBLEMS

This position is based in the field where there is a complex and sensitive situation, it is very crucial for the post holder to understand and manage a wide range of issues in the local context and find creative and thoughtful solutions with resources available according to Plan International's values, missions and mandates. The complex situation in the field will require forward planning, attention to detail and building of relationships. All responsibilities of the position holder are expected to be completed proactively through a Do-No-Harm approach, and with the attention to details and professional relationship building. The post holder is expected to identify and solve problems faced in the field using creative solutions but refer to the Response & Recovery Manager for higher level problems.
