Trainer for Capacity-Building Training on Project Cycle Management, Community Mobilization, Communication, and Facilitation

1. Background

Ar Yone Oo Social Development Association (referred to as AYO), established in May 2008, is a non-political, non-sectarian, and not-for-profit organization implementing both humanitarian and development projects in states and regions across Myanmar, with about 200 staff members and its Head Office in Yangon. AYO is committed to serving the most vulnerable people without prejudice of gender, religion, or ethnic background. AYO's programs are comprised of humanitarian and development projects. With the sustainability of community development in mind, AYO initiates the establishment and continues to strengthen the capacity building of Community-Based Organizations (CBOs). AYO remains dedicated to improving its effectiveness, efficiency, and impact across its areas of programmatic intervention. To strengthen the capacity of its staff and partners working at the community level, the organization is seeking a qualified trainer to conduct an integrated training program focused on:

	Project Cycle Management (PCM)
	Community Mobilization
	Effective Communication
П	Facilitation Skills

This training aims to enhance the practical knowledge and soft skills of field staff, enabling them to design, implement, and manage development and humanitarian projects effectively and responsively in the complex socio-political context of Myanmar.

2. Objective of the Assignment

The full project cycle (from needs assessment, planning, implementation, monitoring and to evaluation) Principles and tools of community mobilization Practical communication and facilitation techniques Adaptive approaches suitable for both humanitarian and development settings in Myanmar 3. Scope of Work / Key Responsibilities The selected trainer will: Design a tailored training curriculum integrating all four thematic areas. Develop relevant case studies and group exercises based on Myanmar's development and humanitarian context. Deliver an in-person training over 4 days. Facilitate participatory learning using adult-learning methodologies. Conduct pre- and post-training assessments. Submit a final report summarizing training outcomes and recommendations. 4. Key Content Areas Project Cycle Management (PCM): Problem analysis, stakeholder mapping Logical framework approach and result-based planning Project implementation, monitoring, and evaluation Community Mobilization: Principles of participatory development Engagement strategies in sensitive or conflict-affected areas Working with community structures and leaders		ojective of this consultancy is to design and deliver an interactive, context-relevant g program to enhance participants' understanding and application of:
 □ Practical communication and facilitation techniques □ Adaptive approaches suitable for both humanitarian and development settings in Myanmar 3.
